

# Bell Language Centre

Teacher:	Ed Rush	Date:	05-02-2026
CEFR Level:	B1	Duration:	46 Minutes
Lesson Shape:	E (Receptive Skills)	Assessment:	N/A
Main Focus:	Reading	Materials:	Oxford Discover Futures, Unit 10, pp104-105

**Main Aim:** By the end of the lesson, learners will have practiced the sub-skills of scanning for information and reading for specific detail in the context of an infographic about the science and history of gold.

## Differentiated Input

*Pedagogical Rationale: Differentiated Input & Learner Autonomy*

*Support is provided through pre-teaching high-frequency technical vocabulary (e.g., excavate, radiation) and using a "Speed Scan" phase to build confidence before the detailed data extraction task. Fast finishers are encouraged to categorize additional verb suffixes from the text.*
